ANAT Open Ended Questions

What did you like most about this course and instructor?

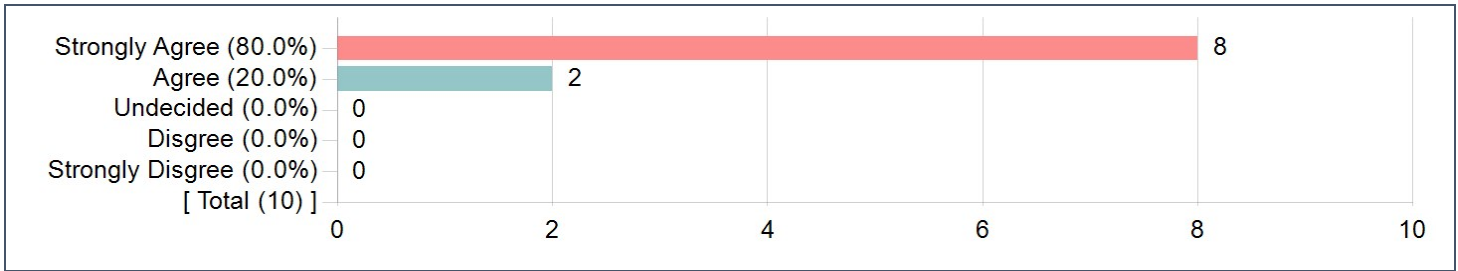

Comments
He was always enthusiastic about teaching the course! He always had good examples with all of the concepts and would relate them back to previous ones to help us understand the material better! I consider myself lucky to have had these two lab AIs. I learned so much from them! They always inspired me to do my best and go the extra mile for the better grade!
Very knowledgeable and good at promoting self learning
he talked to students, not at students
He is very knowledgeable in Anatomy and reviewing with him was effective in helping me learn. He was always willing to talk to us if we did poorly on an exam on how to improve.
Theo made it easy to learn the topics and make it easy to remember. He always let people know how important it was to ask for help and let us know that he was there to help whenever needed.

What did you like least about this course and instructor?

Comments
the review sessions in the beginning of labe were way to fast and kind of pointless
I didn't like his tone at times; during the lab exams he always seemed mad/annoyed at us. He also should watch his language. I know we are all adults and I doubt anyone was offended by it, but it seemed unprofessional.
Nothing simply amazing.
